## Announcing the High Speed, Ultra Precise Spline Drive Digital Rotating Torque Transducers per AND 10262 & AND 20002

Specifically designed for Aircraft and Aerospace Industries

The [MCRT 48851/1](#) Series is well suited for a variety of test applications of hydraulic pumps and motors as well as fuel pumps because we know getting it right is a matter of life and death.

### Features include:

- Spline and Flange configuration per AND 10262 & 20002
- Ranges from 50 to 10,000 lbf-in
- 300% Overload, 150% Overrange
- 30,000 rpm Max Speed
- Permanently Lubricated
- Engineering Unit Digital Outputs of Torque, Speed & Power
- $\pm 5.000/\pm 10$  Volt Analog Outputs of Torque, Speed & Power
- ISO 17025:2017 Accredited Calibration

Our sole focus since 1960 has been torque measurement solutions. Contact our experts today to discuss your torque measurement application and find out how we can meet and exceed your expectations.
